# Track Reported Issue

## Two Ways to Follow Up on a Customer Support Issue

### 1. Access the Savvas Support Site

All Savvas customers may track their support cases on the [Support.Savvas.com](https://support.savvas.com).

#### Steps to Track a Case:

From the Savvas Support Site homepage

- Click **Login** (Next to the search field)
- Enter username/password and click Login
- Click on My Support Cases
- Click on your case number
- Read details about your case status

### 2. Speak to Customer Support

Call: 800-848-9500

Monday-Friday: 8:00 AM – 8:00 PM EST

#### Case Escalation

If you need to escalate a closed case that you feel was not resolved, see these [Steps for Escalation](#).

### More Information About the Savvas Support Site

The Savvas Support Site is a self-help resource that includes access to Customer Service and Technical Support, as well as step-by-step instructions and how-to articles to help you answer questions or resolve issues. You do not have to register to use most of the resources, but it is beneficial if you do.

#### Why should you register?

The most common reason to register is to track your support cases and access specific customer information. All Savvas customers may track their support cases on this website. Once registered, you need not register again.

To learn more about the Savvas Support Site benefits and to register, click [here](#).

# Consumable Text Order

**Customers who purchase consumable worktexts will automatically receive replenishment worktexts each year for the duration of their license.**

## Subscription Worktext Change Request Guidelines

The following guidelines are intended to help you plan for your annual worktext shipments:

- Worktexts will ship each year on the anniversary date of your original order.
- Worktexts will ship to the location listed on the original order.
- Quantities for each grade level and title will remain consistent each year.

## Change Requests

You may need to adjust your annual subscription worktext order. Customer Service can help you make the following common subscription changes 4 weeks prior to your anniversary date:

- Change quantity between purchased titles to accommodate class size.
- Change quantity between grades to accommodate class size. You may only change quantity between grades that were purchased.

Changes that fall outside these parameters should be submitted by webform at least 4 weeks prior to the anniversary date. Customer Service will work with you to determine the best course of action and a revised timeline.

## Instructions to make changes in the Worktext Subscription Self-Service Portal:

**To make your changes**, go to [Subscription Worktext Self-Service Portal](#) and follow the steps provided.

Need Help? Contact Customer Service through the [Access the Self-Service Portal Assistance](#) webform.

Note: Customer Service can help you “consolidate” worktext shipment dates if you need to reorder additional worktexts due to increased enrollment.

# EasyBridge: Accessing Online Curriculum

Your licenses for online curriculum will be activated within 1-2 business days after your order is processed. Once activated, your online curriculum will be available in your EasyBridge account.

## EasyBridge Basic

**There are three ways teachers may obtain access:**

1. The administrator can send the teacher(s) a self-registration invitation. This is the best practice recommendation. [Teacher Self-Registration Process](#)
2. The administrator can complete an upload process to create teacher accounts.
3. Teachers can request an account from their administrator.

## EasyBridge Auto

With EasyBridge Auto, class roster data automatically updates from your district student information system (SIS) to your Savvas learning platforms such as Realize, SuccessNet, Dash, and MathXL® for School.

**Learn more** about [EasyBridge Auto](#) administrator role, teacher access, set up, and implementation

## EasyBridge Plus

EasyBridge Plus is a Single Sign-On (SSO) integrated solution and is connected to your Student Information System (SIS) and your Savvas learning platforms such as Realize, SuccessNet, Dash, and MathXL® for School.

**Learn more** about [EasyBridge Plus](#) administrator role, teacher access, set up, and implementation.

**If your licenses are not available within 3-5 business days**, contact [Technical Support](#).

## EasyBridge Administrators

If your school or district does not already have a dedicated account administrator, please identify the person(s) and complete the [Administrator Request Form](#).

**Learn more** about [EasyBridge Basic](#) administrator role and registration, set up, and account management.

## Access Your Online Curriculum

### Initial Adoption/Renewal Access Codes

If you have adopted a Pearson program that is supported by MyLab or Mastering and need your initial adoption or renewal access, visit the [Access Code Request site](#).

**Learn More About Your AP, Honors, & Electives Curriculum Access and Implementation** on the [Savvas Support Site](#) and [My SavvasTraining](#).

### Registration Support

For additional assistance with access code registration, use the Customer Service [webform](#).

### Technical Support

For technical assistance with AP&E products, including MyLab and Mastering, MathXL for School, and MyMathLab for School, visit the Higher Ed [Technical Support Site](#).

## Downloadable Instructor Resources (IRC)

Most downloadable instructor resources are available within the instructor section of your MyLab and Mastering course. Select resources, including the TestGen application, are available through the Instructor Resource Center (IRC). Registration is necessary to access the IRC. You will need to request an access code and set up a username and password.

To request your access code, visit [Savvas.com/Access\\_Request](#), select the link for Instructor Resource Center and complete the online request form. Upon verification, access information & instructions will be sent via email.

### Check Access Code Status

Enter the access code in the Access Code Status box in the upper right corner of the [OASIS](#) homepage.

- Check the status of an Access Code (not activated-code not yet redeemed, activated-redemptions used/remaining, or expired)
- View activation dates
- Check the status of codes that have multiple redemptions
- Request code deactivation
